at home on Minnehaha Parkway.

## NO.41 THE WATERS

Not many retirement homes have lacquered antler decor, to-the-trade upholstery, and nostalgic black-and-white artwork. But not many retirement homes hire designers like Renée LeJeune Hallberg, who puts a little tailored pep into every project she does, including the massive undertaking of the Waters Senior Living buildings, such as this one in Edina. "RLH Studio was hired to bring in a 'residential' aesthetic," Hallberg says. "While each building is different and unique to its neighborhood, we deliver fresh, comfortable, and stylish backgrounds and furnishings to create a community where the residents can come and thrive." ## NO. 42 THE WALLBANGER

The bar cart evolves, courtesy of Duluth-based Loll Designs. The Wallbanger is a wall-mounted outdoor-friendly bar designed in tandem with UrbanCase. It comes in 10 colors and includes a cutting board for garnishes. \$399, [loll designs.com](http://loll designs.com)

## no 43 Sylvie & Mira

LiLu Interiors' Lisa Peck has branched out with a brand new textile line named after her own two daughters, Sylvia and Miranda. The line consists of hand-knotted Tibetan wool rugs, Belgian linen fabrics, and digital prints from original watercolored wallcoverings, all sold in a few local showrooms at IMS, including Julie Dasher Rugs and Blended Blue.
